DAVIT SYSTEMS

Effortless Dinghy Lifting, Seamlessly Integrated with Your Boat

Transform your boating experience with **SeaWise Marine Davit Systems**—the ultimate solution for safely and easily lifting your dinghy. Engineered for convenience and reliability, our electric and manual-powered systems fit elegantly onto your swim platform, leaving more room for the fun and adventure you deserve.

Whether you're gearing up for a fishing trip, exploring hidden coves, or simply relaxing on the water, SeaWise helps you launch and retrieve your dinghy with ease. Built with marine-grade materials and trusted by boaters worldwide, our davit systems are the perfect companion for your next voyage.

Elevate your journey with SeaWise.

Simply the best! There are two versions of our davit system to choose from:

MANUAL DAVIT SYSTEM

The **SeaWise** manual davit system is a complete, lightweight ready-to-install unit. It comes with a comprehensive installation manual and like all our products is backed by a 5-year limited warranty and toll-free technical support. Thanks to its geared hand-cranked mechanism, one person can easily launch or retrieve the dinghy.

- Outboard orientation automatically maintained
- Up to 450 lbs. lifting capacity
- 316L Stainless Steel, electro polished materials
- Single person operation at the turn of a winch handle

ELECTRIC DAVIT SYSTEM

With the **SeaWise Electric Davit System**, you simply flip a switch to launch or retrieve your dinghy. It is custom-built for a perfect fit and comes with a comprehensive installation manual, and like all our products is backed by a 5-year limited warranty and toll-free technical support.

- Outboard orientation automatically maintained
- Up to 650 lbs. lifting capacity
- 316L Stainless Steel, electro polished materials
- Single person operation at the flip of a switch
- Emergency release
